Experience

Graduate Trainee

May 2025 – Present

Tata Consultancy Services (TCS)

React, JavaScript, HTML, CSS, Linux, APIs, JAVA

- Contributed as a Frontend Engineer to an AI-based internal training platform used by 1000+ internal users, focusing on scalable and reusable UI components in React.
- Engineered responsive interfaces for AI-driven training modules using modern frontend practices, ensuring cross-browser compatibility and consistent design implementation.
- Collaborated with backend engineers, QA teams, and stakeholders to integrate APIs supporting AI-powered features and deliver enhancements aligned with business requirements.

Skills

Programming & Development: JavaScript, React.js, MERN Stack (MongoDB, Express.js, React.js, Node.js), Redux Toolkit, Java.

Cloud & Server Technologies: AWS (EC2, S3, IAM), Linux Server Operations, Bash Scripting

Tools: Git, VS Code, Postman, Linux, AWS

Projects

Next Move Prep – AI-Powered Interview Preparation Platform | *MERN, Redux Toolkit, Gemini AI* | [Live Demo](#)

- Developed an AI-driven interview preparation platform that converts resume PDFs and job descriptions into role-specific interview reports, reducing manual preparation effort by nearly 70%.
- Engineered a structured LLM pipeline using PDF parsing, Gemini prompt orchestration, and schema-validated JSON outputs to generate match scores, interview questions, skill-gap analysis, and day-wise preparation roadmaps.
- Implemented authenticated workflows and MongoDB-backed persistence to enable personalized dashboard access, saved report history, and seamless retrieval of generated interview reports.

Koding Kaksha AI – Learning & Coding Platform with AI | *MongoDB, Express.js, React.js, Redux Toolkit* | [Live Demo](#)

- Architected a role-based learning platform with dedicated dashboards for Students, Lecturers, and Admins, enabling secure course publishing workflows and access-controlled operations.
- Engineered an in-browser coding workspace with multi-language execution, real-time output rendering, standard input support, and persistent session state for an IDE-like experience.
- Integrated an AI-assisted learning layer and discussion forum to accelerate doubt resolution, strengthen conceptual guidance, and improve collaborative learning.

Text Evoke AI – AI-Based Web Application | *React, REST APIs* | [Live Demo](#)

- Engineered an AI-powered React application with REST API integration for article generation and text summarization, featuring responsive reusable components and real-time content rendering.

Easy C – Custom C Library (Team Project) | *C, Technical Documentation* | [Live Documentation](#)

- Contributed to a custom C library with reusable data structure utilities and created example-driven technical documentation to improve modularity, code efficiency, and team-wide adoption.

Education

Bachelor of Computer Applications (BCA)

09/2021 – 06/2024

Shikshaapeeth College of Management and Technology, New Delhi

Computer Science

Senior Secondary (Class XII) – C.B.S.E

04/2020 – 05/2021

Govt. Co-ed Sr. Sec. School, New Delhi

Web Applications, Humanities
